

Adult Intake Nursing Workflow for ED Observation Nurses

Cerner FirstNet EDUCATION

Upon admission of a patient, utilize the Adult Intake Nursing Workflow to complete the required items:

- 1. Documentation of Admission PowerForms:
 - a. Admission-Profile
 - b. Fall Risk Assessment
 - c. Admit Note
 - d. Plan of Care
 - e. Belongings
 - f. Emergency Contact Information
 - g. Patient Care Alerts
- 2. Clinical reconciliation of PAMI (Problems/Histories, Allergies, Home Medications & Immunizations).

Observation Patient Intake Workflow

Follow the steps below for completing the **Adult Intake Nursing Workflow:**

- 1. Select Adult Intake-Nursing workflow from the Nurse View.
- 2. Work from top to bottom of the workflow, progressing through each component in the navigator.

Chief Complaint

Information from the Admission Health Assessment (AHA), Admission Profile (AP), ED Triage from ED or Urgent Care populate this section.

1. Nurses can enter or modify the Chief Complaint. Sign is required after entering/modifying information.
