Allergies: Reviewing at Admission for Nurses
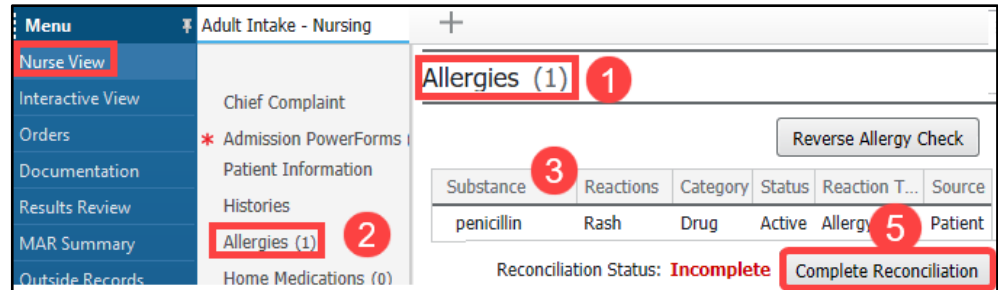

Review Existing Allergies at Admission

Allergies are to be reviewed and reconciled within 1 hour of admission.

1. Select **Nurse View** from the chart menu.

2. Select **Allergies** from the Adult or Pediatric Intake - Nursing Workflow.

3. Review documented allergies and reactions with the patient.

4. Add additional allergies, if applicable, by selecting the **Allergies** hyperlink.

   Note: For more information, please see the education document **Allergy Entry** located on the Clinical EHR Education website.

5. Click **Complete Reconciliation** when the review and reconciliation process are complete.

6. The **Reconciliation Status** displays completed with a time/date stamp.
