

Code Status – Advance Care Planning MPage for Providers, Ancillary Staff

Cerner PowerChart, FirstNet **EDUCATION**

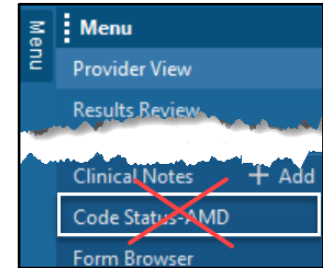

Summary: The Code Status-AMD tab in the blue menu will be replaced with a new Code Status - Advance Care Planning MPage (workflow) for all clinical positions in Cerner PowerChart.

When: October 10, 2022.

Support: Help Desk at 231-935-6053

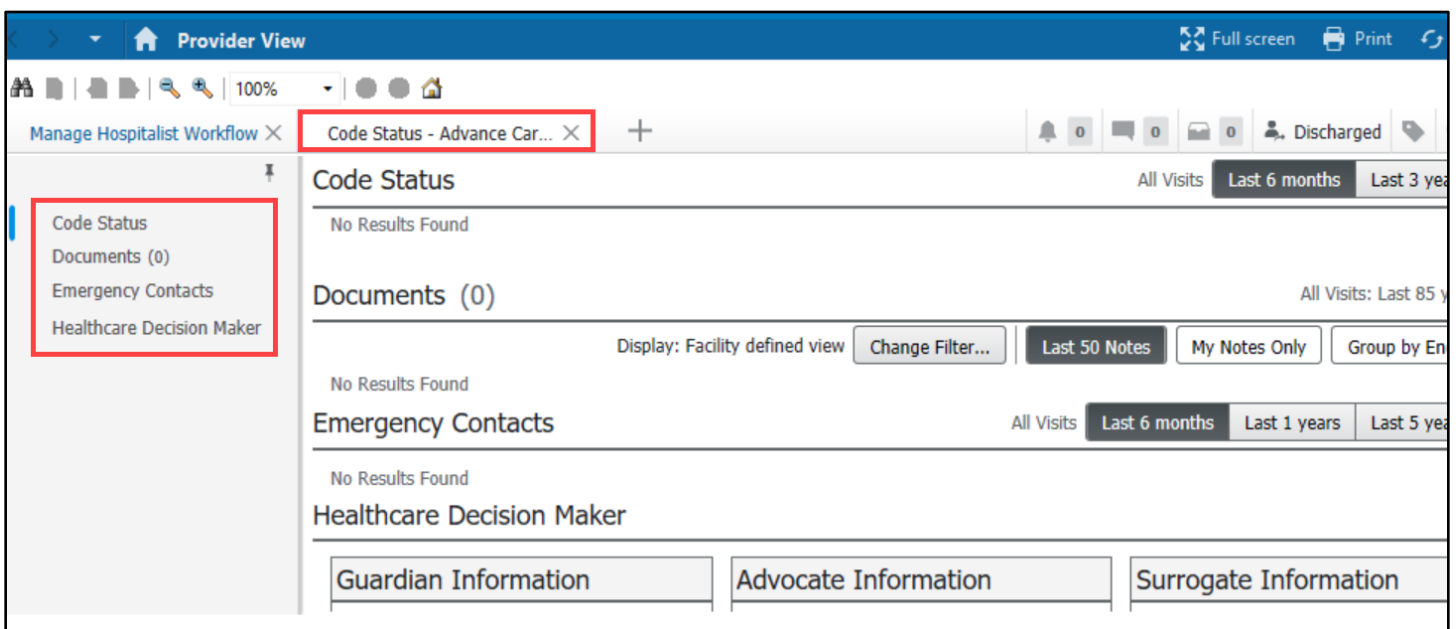

New MPage for Providers

When viewing a patient’s chart, the Code Status-AMD tab in the blue menu has been removed.

A new **Code Status - Advance Care Planning** MPage (workflow) has been added to the Provider View, which will now contain the patient’s code status information, advance care planning documents (such as an out of hospital medical order, advance directive, letters of guardianship, decision making capacity assessments), emergency contacts, and the Healthcare Decision Maker (Guardian, Advocate, Surrogate or Parent/Foster Parent) information as applicable. Emergency Contact information will display from the last 6 months, 1 year or 5 years depending on the filter selected.

Note: If a document is scanned into the patient’s chart, but there is not any information displayed on the Healthcare Decision Maker section of this MPage, the user should reference the scanned document.

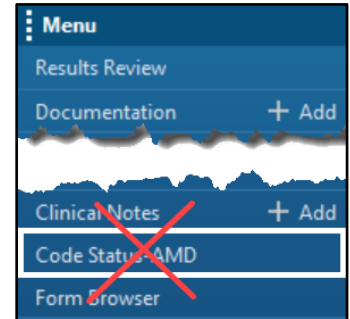

Code Status – Advance Care Planning MPage for Providers, Ancillary Staff

Cerner PowerChart, FirstNet EDUCATION

New MPage for Ancillary Staff

For positions that do not have a “Nurse View” or “Provider View” tab in the blue menu, the Code Status-AMD tab will no longer be accessible when viewing a patient’s chart.

A new **Code Status- Advance Care Planning** MPage (workflow) is available in the MPage tab of the Dark Blue menu. This will contain the patient’s code status information, advance care planning documents (such as an out of hospital medical order, advance directive, letters of guardianship, decision making capacity assessments), emergency contacts, and the Healthcare Decision Maker (Guardian, Advocate, Surrogate or Parent/Foster Parent) information as applicable. Emergency Contact information will display from the last 6 months, 1 year or 5 years depending on the filter selected.

Note: If a document is scanned into the patient’s chart, but there is not any information displayed on the Healthcare Decision Maker section of this MPage, the user should reference the scanned document
