

# Interactive View: Documenting Circumcisions for Maternity Nurses

Cerner PowerChart EDUCATION

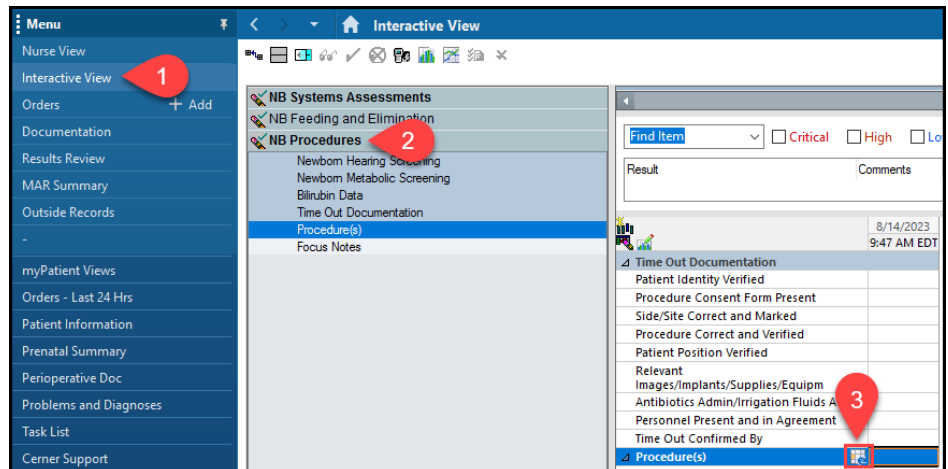

## Description

Circumcisions require documentation for the procedure, the assessment, and the care provided.

## Circumcision Procedure Documentation

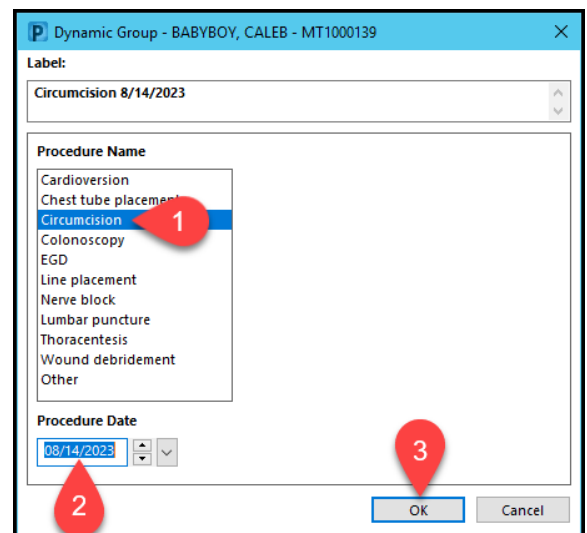

Within the newborn baby's chart go to:

1. Interactive View from the dark menu.
2. Select the NB Procedures band.
3. Single click on the dynamic group icon next to Procedure(s) to document the circumcision procedure.

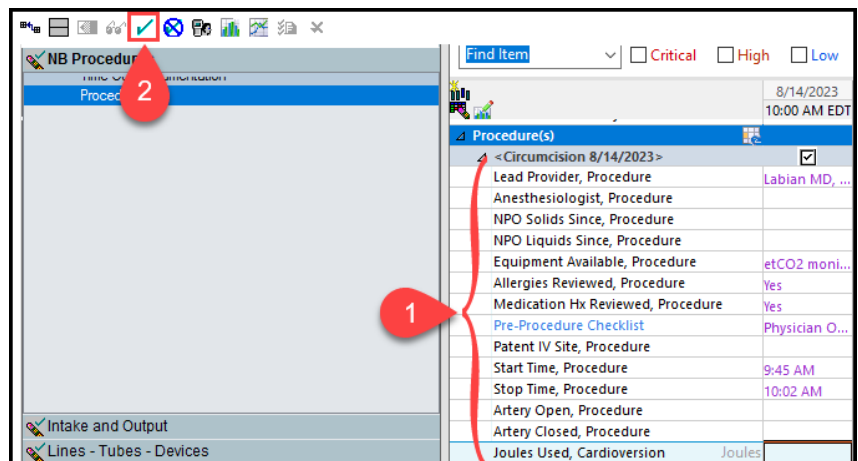

To create the dynamic group label for the circumcision procedure:

1. Select **Circumcision** from the Procedure Name box.
2. Insert the date of the procedure in the Procedure Date field.
3. Click **OK**.

Once the dynamic group label is made for the circumcision procedure:

1. Document the appropriate information.
  - a. **Note:** Not all information will be appropriate to document. Skip the fields that do not pertain to the circumcision procedure.
2. Sign the documentation.

## Circumcision Wound/Assessment Documentation

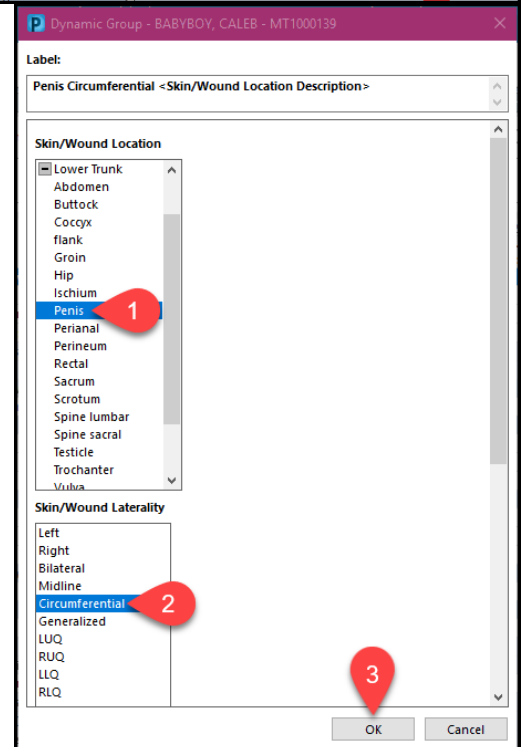

Within the newborn baby's chart go to:

1. Interactive View from the dark menu.
2. Select the NB Systems Assessments band.
3. Click on **Integumentary Assessment**.
4. Single click on the dynamic group icon next to Skin/Wound Variance(s) to initiate the label for the wound assessment.

To create a dynamic group label for the circumcision wound assessment:

1. Select the Skin/Wound Location.
2. Select the Skin/Wound Laterality.
3. Click **OK**.

Once the dynamic group label is created for the circumcision wound assessment:

1. Document the appropriate information about the assessment.
2. Sign the documentation.
