

Basic Functionality

Intake and Output is documented within Interactive View.

Within the Intake and Output band are several sections. Dark bands display in the view pane by default. Lighter sections do not display until the user selects the section.

To activate and document, double click the section header or double click a single field.

Customization

Add items to the I&O band by using the Customize View icon. For example, to display the epidural volumes field: go to Other Intake Sources section on the Customize tab of the window.

1. Click the Customize View icon.
2. Select the arrow to the left of the section to expand.
3. Click the checkbox for to the right of the field.
4. Click OK.

The screenshot shows the 'Customize View' dialog box with the following items highlighted:

- 1:** The 'Customize View' icon in the top left corner of the I&O band.
- 2:** The expand arrow to the left of the 'Other Intake Sources' section in the dialog box.
- 3:** The checkbox to the right of the 'Epidural Running Total' field in the dialog box.
- 4:** The 'OK' button at the bottom right of the dialog box.

Balances and Totals

Summary of today's and yesterday's I&O are at the top of the flow sheet.

Shift and 24-hour total columns display corresponding totals.

Fluid balances are listed at the bottom of the flow sheet.

December 29, 2022 7:00 AM EST - December 31, 2022 6:59 AM EST								
Today's Intake: 0 mL Output: 0 mL Balance: 0 mL								
Yesterday's Intake: 0 mL Output: 0 mL Balance: 0 mL								
24h Total	Nights	6:00 AM - 6:59 AM EST	11:00 PM - 11:59 PM EST	Afternoons	10:00 PM - 10:59 PM EST	Days	2:00 PM - 2:59 PM EST	11:00 PM - 11:59 PM EST

IV Intake

Continuous Infusions rows are created automatically when a titratable or continuous infusion is ordered.

Today's Intake: 1099.99 mL Output: 0 mL Balance: 1099.99 mL		Yesterday's Intake				
		1/3/2				
		Days	2:00 PM - 2:59 PM EST	1:00 PM - 1:59 PM EST	12:00 PM - 12:59 PM EST	11:00 AM - 11:59 AM EST
Intake Total						
Continuous Infusions						
D5W IV SOLN 1,000 mL	mL					
Dextrose 5% in Lactated Ringers 1,000 mL	mL					
heparin 100 units/mL-NaCl 0.45% in...	mL					
Normal Saline 0.9% IV BOLUS 1,000 mL	mL	1000			1000	
Normal Saline 0.9% IV BOLUS 500 mL	mL					
Medications		99.99	33.33	33.33	33.33	
metronidazole	mL	99.99	33.33	33.33	33.33	

The Medications section populates when an IVPB is scanned prior to administration.

Titratable drip and Continuous IV volumes will automatically populate when the cell is double clicked.
