

Description

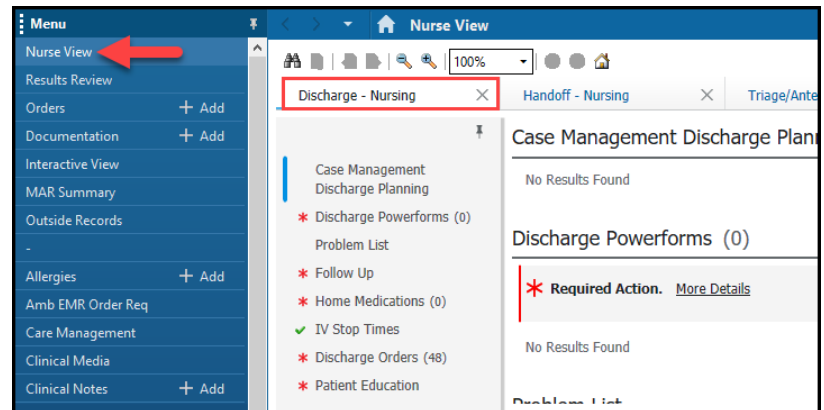

When maternity patients are discharged, there are several items that need to be completed. Please keep in mind:

- Nurses will not receive any tasks for a discharge.
- All discharge requirements will be completed on the Discharge Nursing Workflow.

Nurse View: Discharge Nursing Workflow

Go to Nurse View from the dark menu and select the Discharge Nursing workflow tab. Complete the necessary required items. Red asterisks will indicate required fields, green checkmarks will show when items are complete.

- See Discharge Nursing Workflow Overview education located on the Hospital Nursing Discharge Process webpage.

Complete Necessary Charting

- Documented Interdisciplinary Plans of Care (IPOC), including all the goals and interventions as met or not met as appropriate.
 - See Interdisciplinary Plans of Care (IPOC) education located on the Hospital Maternity Nursing: Documentation webpage.
- Performed a Result Copy from the mother's chart to the baby's chart.
 - See Result Copy education located on the Hospital Maternity Nursing: Documentation webpage.
- Closed the pregnancy.
 - See Triage/Ante/Labor Workflow – Closing the Pregnancy education located on the Hospital Maternity Nursing: Triage/Ante/Labor Workflow webpage.
