

## Accessing the Handoff Nursing Workflow

Handoff Nursing Workflow is a tool which can be used to:

- Obtain information on a patient.
- Review documentation from other disciplines.
- Facilitate bedside report, unit to unit report, and report to an outside facility (ex: SNF, AFC).

## Handoff Nursing Workflow Functionality

# Nursing Handoff Workflow: Overview for Nursing Staff

Cerner PowerChart EDUCATION

The patient chart is easily accessed using hyperlinks found in component headers.

Headers contain selections to filter displayed results.

To refresh these results, click the Refresh icon.

To return to the Workflow, click the back arrow.
