

## Cerner FirstNet EDUCATION

#### LaunchPoint: Overview

LaunchPoint is the FirstNet Organizer that provides the patient's location, condition and status as the patient progresses through their stay in the Emergency Department.

 There are minimal variations of LaunchPoint between staff, providers and MHC facilities offering standardization and recognizability throughout Munson Healthcare.

### Zone Tabs and Filters

- 1. Select a Zone Tab to view the patients in that area. \* Note: Some facilities display additional Zone Tabs.
- 2. After selecting a Zone Tab, any combination of filters can be applied to the selected Zone.

ED LaunchPoint All Beds Tab displays all patients in a room.				Departed Tab displays all patients who have Departed from the ED.

Empty Beds Filter is selected; Empty Beds will display in addition to all patients.					

#### **Right Click Menu**

Right click on a patient's row to access the following menu:

# Cerner FirstNet EDUCATION

### **Critical Room Alerts**

Critical Room Alerts display in the room column.

\* Note: Only one alert displays based on the assigned ranking. If the patient has multiple Alerts assigned a page turn icon displays.

Use the right click menu to add/remove a user requested Alert:

To add, choose Request Event and select from the list. I.e., Isolation.
To remove, choose Complete Event and select from the list.

Right click menu.	1. To add, choo

## **Interactive View (IView) Documentation**

IView is a tab in within the patient's chart that allows you to chart and view patient data including:

- Vital Signs
- Intake and Output
- Height and Weight

1. To navigate to IView from LaunchPoint, open the right click menu and select IView.

- 2. The IView tab will open.
  - a. Double click the time cell to activate charting in all sections of the band.

b. Double click the section header to

- activate the section for documentation.
- c. To chart in one cell only, double click
- the cell to activate it.

After results are entered click sign.
