Triage/Ante/Labor Workflow: Navigation & Customization for Maternity Nurses

Cerner PowerChart EDUCATION

Description

The Triage/Ante/Labor Workflow is an interactive page located within the patient's chart on the dark Menu in Nurse View. It displays patient specific information related to an active pregnancy.

- This information has been • pulled from previously charted data in various locations in PowerChart.
- Some additional information can be added.
- CERNED, DIANADELIVERY DOB:12/12/1994 Age:28 years MRN:MT1000117 Location:PG-Mat; REC; 2 Sex:Female MT1719900004**Active**OBV (O rvation)[10/3/2022 Menu Nurse View A Nurse View # 4 100% Interactive View Triage/Ante/Labor Handoff - Nursing Intake - Nursing X X Orders + Add I Pregnancy Overview **Results Review** Pregnancy Overview MAR Summary EDD Maintenance (1) Current Pregnancy Contact Info Demographics Outside Records Pregnancy Timeline Prenatal Visits EDD 06/22/23 Current Weigh + Add Prenatal Labs & Tests (Authoritative) Pre-Preg Weight Clinical Media EGA Delivered Intrapartum/Labor Height G3,P2(2,0,0,2) Gravida/Parity Assessment .. + Add
- This workflow contains hyperlinks to easily access other areas of the patient's chart.
- Information will ONLY be present if a pregnancy has been added. For more information on adding a pregnancy ٠ see the Triage/Ante/Labor Workflow: Adding a Pregnancy education document located on the Hospital Maternity Nursing: Triage/Ante/Labor Workflow webpage.

Customizing

Personal customizations can occur on the Triage/Ante/Labor Workflow. Any customizations made will remain the same from chart to chart for that single user only. This is done to create a view that most closely matches the user's workflow and preferences.

- 1. Components on the light navigation menu can be moved up or down by clicking and dragging.
- 2. Components can be added and removed. Go to the top right of the screen.

a. Click on the ■ icon.

b. Click on the Components dropdown.
