2 + Add Baby

Adding Multiples to the Prenatal Card for Providers

Cerner PowerChart Ambulatory JOB AID

3. Click the drop down arrow next to “Select label for this baby”.
4. Select “Add”.

The screenshot shows a section of the prenatal card with fields for 'Presentation', 'Movement', and 'Heart Rate'. Below these is a section labeled '*Select Label for this baby:' with a dropdown arrow. A red circle with the number '3' is over the dropdown arrow. A red box highlights the 'Add' button, and a red circle with the number '4' is over it. The dropdown menu is open, showing options: 'Baby or Fetus A', 'Baby or Fetus B', 'Baby or Fetus C', and 'Baby or Fetus D'.

- “Baby or Fetus B” will now be on the prenatal card for the current and future visits.

The screenshot shows the full prenatal card for a patient on 01/14/20 at 8w5d. It includes fields for Fundal Height, Preterm Signs and Symptoms, Cervical Exam, Blood Pressure (120 / 80), Weight, Edema, Protein, Glucose, and Ketones. At the bottom, there is a section for adding babies with fields for 'Presentation', 'Movement', and 'Heart Rate'. Two babies are listed: '[Baby or Fetus A]' and '[Baby or Fetus B]'. The '[Baby or Fetus B]' entry is highlighted with a red box. A '+ Add Baby' button is visible to the right of the fields.

- Additional babies can be added by repeating these steps.
