

# Abnormal Involuntary Movement Scale (AIMS) for Providers and Clinical Staff

Cerner PowerChart and Ambulatory JOB AID

**Summary:** Current recommendation is for an Abnormal Involuntary Movement Scale be completed yearly for patients currently taking prescribed antipsychotic medication. AIMS is available as a Recommendation to be added on the Workflow Page manually as needed.

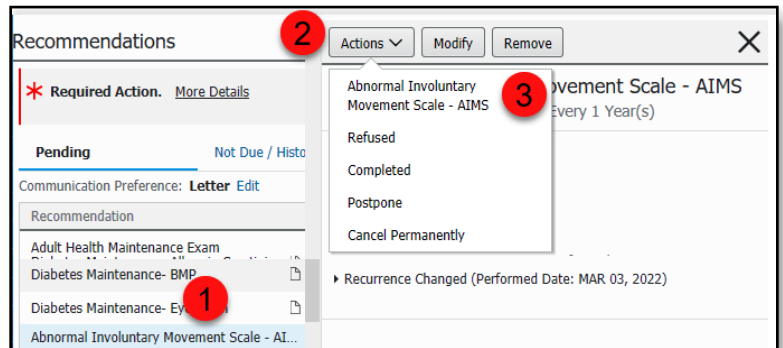

## How to Add AIMS Recommendation

1. Navigate to **Recommendations** on the Workflow Page.
2. Select the (+) to add a recommendation.
3. Click on the Abnormal Involuntary Movement Scale.
4. Ensure that the recurrence is for one year.
5. Click submit.

## Completing AIMS

1. Select Abnormal Involuntary Movement Scale.
2. Click on Actions.
3. Click on the Abnormal Involuntary Movement Scale.

4. Ensure that the date and time are correct.
5. When the form is completed, click the green check to sign.

**Note:**

- The Abnormal Involuntary Movement Scale recommendation will be satisfied and will default to be due again in 1 year from the Performed on date.
- You may need to refresh your screen for the recommendations to update.
