

Ambulatory Organizer Resource Selection for Providers and Clinical Staff

Cerner PowerChart Ambulatory EDUCATION

Selecting Resource(s) to be Displayed

Complete the following steps to select a resource(s) to be displayed in each view:

1. Select the drop-down arrow next to **Patients for: No Resource Selected**.
2. Type the provider's name in the search box.
3. Select the resource to add to the Patients for: menu.
 - a. **Note:** Users can select multiple resources to display at once.
4. Click Apply.

Users can also add a resource group by following the steps above. A resource group (i.e., an ambulatory clinic) is signified with a person group icon.

5. To remove a resource from being displayed, deselect (uncheck) the resource.
6. Click the on the icon to the far right of the resource name to remove a resource from the Patients for: menu.

Note: If a resource is removed from the Patients for: menu, it is removed from all views (i.e., from List, Day and Week views). When switching between views, each view displays the resources previously selected to be displayed in that specific view.
