

Anticoagulation Clinic Task List for Providers

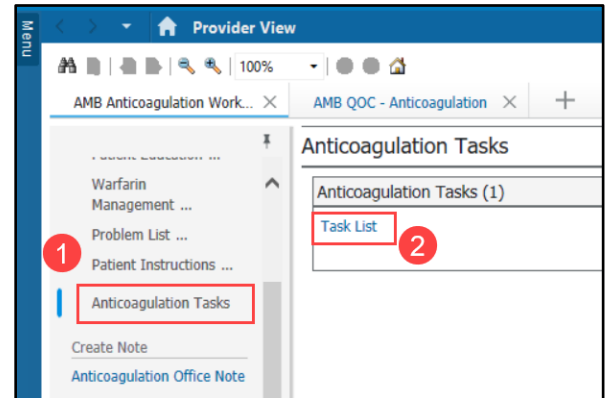

Cerner PowerChart Ambulatory EDUCATION

Providers at the OMH Medical Group Anticoagulation Clinic will utilize a Task List to document the Point of Care (POC) INR test. This process occurs after the POC INR order has been placed.

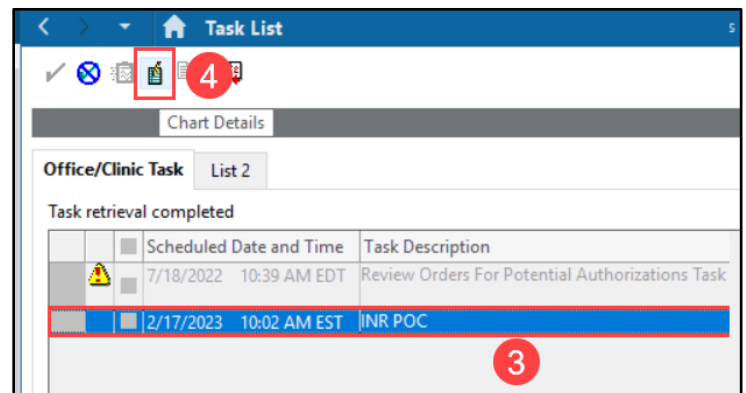

Using the Task List

To document the POC INR test:

1. Navigate to the Anticoagulation Tasks Component within the AMB Anticoagulation Workflow.
2. Click on Task List.

3. Select the INR POC task.
4. Click Chart Details and the INR POC PowerForm Opens.

5. Enter the details in the INR POC PowerForm.
6. Click the **green checkmark** to sign the form.
