

Code Status and Advance Care Planning for Patient Care Management

Cerner PowerChart EDUCATION

The Code Status – Advance Care Planning page view in the Care Management Solution contains the patient’s Code Status information, Advance Care Planning documents (such as an out of hospital medical order, advance directive, letters of guardianship, decision making capacity assessments), Emergency Contacts, and the Healthcare Decision Maker (Guardian, Advocate, Surrogate, or Parent/Foster Parent) information, as applicable. Filters available may be used to change the data displayed.

Note: If a document is scanned into the patient’s chart, but information is not displaying on the Healthcare Decision Maker section of this page view, reference the scanned document.
