

# Cosmetic Botox and Filler Injection Workflow for Providers

## Cerner PowerChart Ambulatory EDUCATION

This document outlines the provider workflow for Cosmetic Botox and Filler Injections at the OMH Gaylord General Surgery practice.

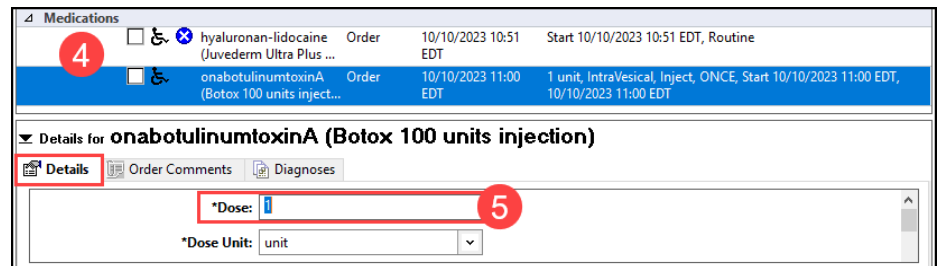

### Order Entry

1. Navigate to the **AMB QOC – General Surgery MP**Page.
2. In the New Order Entry component:
  - a. Order the Dummy Charge:
    - i. Search for: **Cosmetic SVC Cash D0028** (dummy code).
  - b. Order Botox:
    - i. Search for the Botox type: Botulinum order sentence.
  - c. Order Filler type:
    - i. Search for one or more filler type(s):
      - Juvederm Ultra Plus XC
      - Juvederm Ultra XC
      - Juvederm Volbella w/ lidocaine
      - Juvederm Voluma w/ lidocaine
      - Juvederm Volift w/ lidocaine

3. Click Orders for Signature  and select Modify Details.

4. Enter the medication Details, as needed.
5. Add the Dose of '1' in the Details tab for **both** orders.
6. Click **Sign**.

### Create Visit Note

1. Select the Surgical Office Procedure note type and complete the necessary documentation of the procedure.
2. **Sign** the Surgical Office Procedure note.
3. Close the Charge Assist window **WITHOUT** selecting a visit charge.  
**Note:** Do NOT select a charge, close Charge Assist.
4. Complete the paper facial diagram and give to the appropriate care team member.  
**Note:** Clerical staff will scan the facial diagram into the patient's chart once the provider signs the office note.
