

Glucose Equipment and Supply Order Workflow for Providers and Clinical Staff

Cerner PowerChart Ambulatory EDUCATION

Glucose Monitoring Device, Insulin Syringes, and Blood Glucose Test Strips

Glucose monitoring devices can be ordered for a patient by a care team member within the DME order set on the Quick Orders and Charges page. Insulin syringes and blood glucose test strips can be entered as medication orders. Clinical staff entering these orders must propose the order(s) to a provider. DME orders can be printed or faxed through Medical Record Request.

Glucose Monitoring Device - DME Order Entry

Within the patient's chart, navigate to the Quick Orders and Charges page.

1. Select the generic DME order: Misc Therapeutic Items/Supplies T1999.

Note: Clinical Staff entering the DME order must propose the order to the provider.

2. Within Orders for Signature, click on Modify Details.

Medical Record Request

Printing and Faxing DME Orders

Within the patient's chart:

1. Click the Medical Record Request icon on the top PowerChart toolbar.

Note: DME orders proposed to a provider cannot be printed or faxed until the provider signs the order.

- 2. Within Medical Record Request, fill in the **required** fields:
 - a. Template: AMB CP Scheduling Comprehensive.
 - b. Purpose: Further Medical Care.
 - c. Within the Sections tab, select ORD AMB Ambulatory Procedures.
 - d. Print or Fax the order:
 - To Print:
 - 1. Click **Preview**, then click the print icon.
 - To Fax:
 - 2. Select the Device !FxClinicName (the Device is the care team members clinic fax).

Note: To set a fax Device as a favorite, refer to Clinical Staff Personalization document on the <u>Clinical EHR Education</u> website for additional information.

- 3. Click Send.
 - Enter the pharmacy fax number (10-digit number).

Note: To locate the fax number for the patient's pharmacy, click on the **Patient Pharmacy** icon, hover the cursor over the patient's preferred pharmacy for additional information to display (Ex: phone number, **fax number**, address).
