

Working with Registries

HealthRegistries

The screenshot shows the HealthRegistries interface with the following numbered callouts:

- 1: HealthRegistries logo
- 2: Registries navigation tab
- 3: Personnel Name search box
- 4: Apps button
- 5: Search box
- 6: Quality Score (29.55%)
- 7: Treemap and table view buttons
- 8: Treemap of registries
- 9: View Person button
- 10: Enter Missing Data button
- 11: Legend (0% Met to 100% Met)
- 12: Filters bar (All Registries, Met %)
- 13: Attributed persons link (1,388 Persons, 29% Complete)
- 14: Information about the provider or organization (Internal Medicine, Neurology)

Overview of the Registries Tab

The following items are available in the Registries tab:

1. Home page link
2. Navigation tabs
3. Sign out menu
4. Apps button (allows you to navigate to other applications)
5. Search box
6. Quality score (the total number of measures met divided by the number of measures eligible)
7. Treemap and table view buttons
8. Treemap (the cells in the bottom-right are the highest-performing measures)
9. View Persons button
10. Enter Missing Data button (if configured)
11. Legend (the quality score or met percentage)
12. Filters bar
13. Attributed persons link
14. Information about the provider or organization

Viewing Registries

Complete one of the following actions:

- ◆ If you are a provider and want to view your performance, click **View Registries Performance** on the home page.
- ◆ If you have access to view multiple providers, sort for and select a provider or click **Provider List** under the organization name in the tab.
- ◆ If you have access to view organization performance, search for and select an organization or select an organization in the tab.

You can select a registry from the All Registries list to view the measures for that registry, or double-click a registry.

You also can select **Completion %** or **Met %** to sort or click the **table** button  to view the registries on a table.

Viewing People on a Registry

Click **View Persons** below the treemap.

To filter, click the **Filter** icon then select filters and click **Set Filters**. You also can select an option from the Sort By list to sort. See the Working With Person Information job aid for more information.
