Intake and Output Overview

Providers can view a patient's intake and output within Interactive View (IView) but are unable to edit this information. To view a patient's intake and output:

- 1. Select Interactive View in the dark blue Menu.
- 2. The IView Navigator is made up of bands and sections within the bands. Sections with a checkmark indicate data has been entered. Click on the Intake and Output band:
 - a. A summary of Today's and Yesterday's I&O are at the top of the flowsheet.
 - b. Darker colored rows list hourly volumes for the specific categories such as Urine Output.
 - c. Shift (Days, Afternoons and Nights) and 24-hour total columns display corresponding totals.
 - d. Fluid Balances are listed at the bottom of the flowsheet.
