

MAPS (Michigan Automated Prescription System) for Providers

Cerner PowerChart, FirstNet, Ambulatory EDUCATION

As of June 1, 2018, the State of Michigan has mandated that a licensed prescriber shall obtain and review a report concerning the patient from the electronic system for monitoring schedule 2, 3, 4, and 5 controlled substances before prescribing or dispensing a controlled substance to a patient in a quantity that exceeds a 3-day supply.

Opioid Review Component

The Opioid Review component is located in the Workflows with Provider View. Prescription Drug Monitoring Program (PDMP) information is automatically updated for the patient once the Opioid Review component is opened within the Workflow.

For all providers prescribing controlled substances, it is **required** to:

- 1. Click View Report.
 - a. This will automatically check the box next to:
 I certify that I have reviewed PDMP information.
- 2. Click Marked as Reviewed.
- Recheck the box next to: I certify that I have reviewed PDMP information. Do NOT uncheck this box.

Opioid Review		+ ~ ~						
More than 3 Opioid Rx in the last 60 days: No Coprescribed Opioid and Benzo: No								
PDMP Review View Report 1	Clicking on View Report will automatically check this box							
Acute Opioid Administr All Visits Last 60 Days Prescribed and Docume	Clicking Mark as Reviewed will add a time stamp and make the red circle a green							
I certify that I have reviewed P	DMP information. PDMP Reviewed: 8	Checkmark						

Completing this process is **required** for regulatory compliance, which gives the providers credit for CMS Regulatory and Michigan mandates.

View Report Overview

After clicking on View Report in the Opioid Review Component, the PDMP AWARExE software launches.

Header:

- 1. The Menu tab will show a list of MAPS Tutorials.
- 2. Click on the Resources tab to view MAPS providers and CDC information.
