

Note Types and Favorites for Providers

Cerner Ambulatory, PowerChart, FirstNet, EDUCATION

Selecting the Correct Note Type

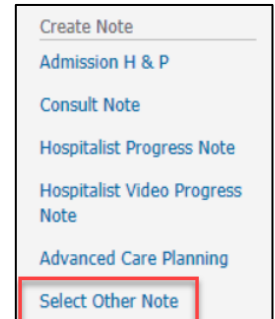

When selecting a note from one of the Workflows, the Note Type is **AUTOMATICALLY** selected.

When using 'Select Other Note' in the Workflows or 'Add' in the Documentation section of the dark blue Menu, the Note Type must be **MANUALLY** selected.

1. Set the **Note Type List Filter**: ALL.
2. Select the **Note Template**.
3. Select the ***Type** (see the grid below).

NOTE: This is IMPORTANT to avoid any medical record deficiencies.

4. Click the star to favorite a Note Template. A yellow star indicates the template has been favorited.

*Note Type	Note Template/Title
History and Physical	Admission H & P
Consult Note	Consult Note
(Specialty) Progress Note	(Specialty) Progress Note
Operative/Procedure Report	Op/Procedure Note
Emergency Department Report	ED Provider Note
Urgent Care Report	UC Provider Note
