

Overview

The Pathology/Misc component in the AMB and Manage Specialty Workflows within the Provider View allows a provider to view pathology reports for a patient.

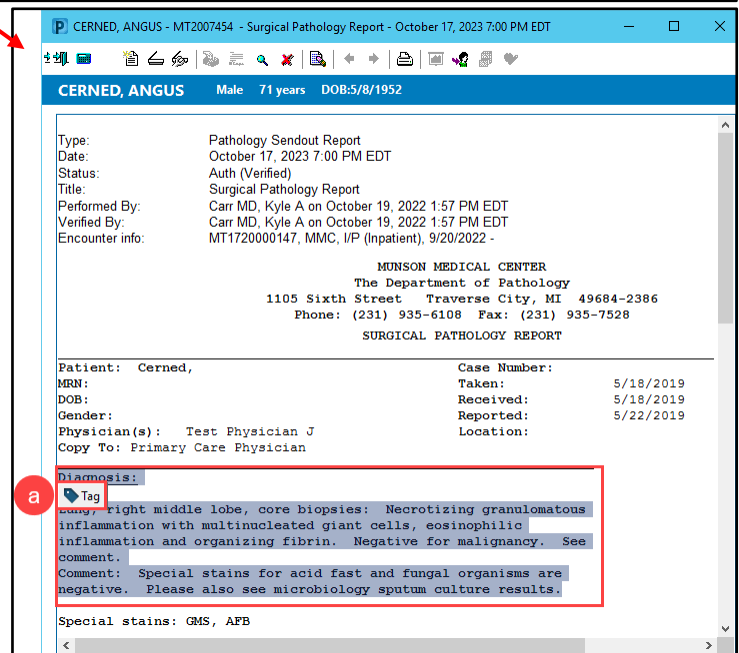

Pathology Component

To view pathology reports:

1. Navigate to the Pathology/Misc component in the workflow.
2. Select the desired timeline filter for pathology reports to display.
3. Details are displayed in the various columns and can be selected to adjust the list order.
4. Click on the pathology report name hyperlink to view the report in a separate window.

5. In the pathology report window:
 - a. Highlight text and click **Tag** to copy the text to use in a dynamic documentation note.
 - i. Tagged items will appear in the **Tagged Items** inbox.

6. Pathology Sendout Reports are also viewed within this component.

Note: Send out labs come from Mayo Clinic, Spectrum, and other sources.
