Adding a Patient Pharmacy

- 1. To add a Patient Preferred Pharmacy:
 - a. Navigate to the Search tab.
 - b. Enter a Pharmacy Name.
 - c. City and State will automatically populate from patient registration (change as needed).
 - d. Select the correct Pharmacy Type filter.
 - e. Click Search.
 - f. Right click on the desired pharmacy and select Add to Patient Preferred.

Note: If the patient does not have a preferred pharmacy listed, this window will open to the Search tab. If the patient has one or more preferred pharmacies on file, it will open to the Patient Preferred tab.

Removing a Patient Pharmacy

To remove a pharmacy from the Patient Preferred list:

- a. While in the Patient Preferred Pharmacy window, select the Patient Preferred tab.
- b. Right click on the desired pharmacy and select Remove.

Updating Default Patient Pharmacy

1. To change a default Patient Preferred pharmacy:

a. While in the Patient Preferred Pharmacy window, select the Patient Preferred tab.

 Right click on the desired default pharmacy and select Set as Default.

Note: The default Patient Preferred pharmacy is identified by bold text.

2. When complete with all Patient Pharmacy modifications, Click OK.
