

Patient Provided Vital Signs for Providers and Clinical Staff

Cerner PowerChart Ambulatory Education

Documenting Patient Provided Vital Signs

1. Navigate to **Vital Signs** on the Ambulatory Workflow and click on the drop-down arrow.
2. Click on **Patient Provided Vital Signs**.
3. Document the patient's vital signs.
 - a. Change **Performed on:** to the correct date and time.
 - b. Document vital signs and associated date or blood pressure average and date range.
 - c. Blood Pressure Obtained and Viewed by Clinician During Visit must be documented.
 - Answer **Yes or No** as appropriate.
 - d. Sign the form by clicking the **green check**.

*Performed on: 03/11/2022 1333 EST

Patient Provided Vital Signs

SBP / DBP mmHg / mmHg	Pulse bpm	SpO2 %	Temperature (DegC) DegC	Date MM/DD/YYYY
Height Non-Measured (cm) cm	Weight Non-Measured (kg) kg	Calculated Non-Measured BMI		
SBP / DBP - AVERAGE mmHg / mmHg	Date Range			
Blood Pressure Source				
<input type="radio"/> left arm w/BP machine <input type="radio"/> left arm, manually <input type="radio"/> Left forearm, radial cuff <input type="radio"/> right arm w/BP machine <input type="radio"/> right arm, manually <input type="radio"/> Right forearm, radial cuff				
Blood Pressure Obtained and Viewed by Clinician During Visit				
<input checked="" type="radio"/> Yes <input type="radio"/> No				

○ **Note:** If there are multiple Vital Sign entries needed, you must document Patient Provided Vital Signs for each entry.

Viewing Patient Provided Vital Signs Documentation

- Patient Provided Vital Signs documentation can be viewed from Ambulatory Workflow Vital Signs or Results Review.

Vital Signs	
Systolic Blood Pressure, mmHg	120 3 mins
Diastolic Blood Pressure, mmHg	68 3 mins
Pulse Rate, Patient Provided, bpm	82 3 mins

Vital Signs - Patient Provided	
<input type="checkbox"/> Systolic Blood Pressure, Pt. Provided	120 mmHg
<input type="checkbox"/> Diastolic Blood Pressure, Pt. Provided	68 mmHg
Blood Pressure Source, Pt. Provided	left arm w/...
BP Clinician Obtained/OBS, Pt. Provided	No
<input type="checkbox"/> Pulse Rate, Patient Provided	82 bpm

Abstractors: If you are abstracting blood pressures for payers, make sure you choose the **office obtained readings**.
