

Post Acute Resource Specialist Documentation for Patient Care Management

Cerner PowerChart EDUCATION

Overview

Post-Acute Care Resource Specialists use the **Care Management Assessment PowerForm** for all documentation.

 Navigate to the Readmission Risk Summary on the dark blue menu in the patient's chart.

| Menu | Overview | Readmission Risk | Supp Serv/Interdisp | Documenta | 2 Tr | ansition Readiness 3 | |
|--------------------------|-----------------------------------|------------------|--|-----------|-------|----------------------------|--|
| Care Management 🔍 | | | | | | | |
| Readmission Risk Summary | Transitions of Care Documentation | | | | | | |
| Results Review | Status | Туре | | | Title | 0 | |
| Documentation + | No Result: | Found Transition | Transition Readiness Documentation PowerForm | | | Care Management Assessment | |

- 2. Click on the Transition Readiness tab.
- 3. Click the blue hyperlink to open the Care Management Assessment PowerForm.
 - Use this PowerForm for all documentation until the patient is discharged.
 - Prior documentation from each entry will carry forward and display on the Care Management Assessment PowerForm.
- 4. Click **Discharge Needs II** on the left side of the form.
- 5. Go to the **Discharge Planning** section.
 - a. Locate Patient Choices Made.
 - b. Enter your documentation.
- 6. Click the **green checkmark** to sign your documentation.

Viewing Care Management Documentation

Care Management documentation can be viewed from three areas within the patient's chart.

- 1. Clinical Notes on the dark blue menu in the Assessment Notes folder
- 2. Documentation on the dark blue menu.
- 3. Results Review on the dark blue menu.
