

## Postpartum Pregnancy Documentation for Providers and Clinical Staff

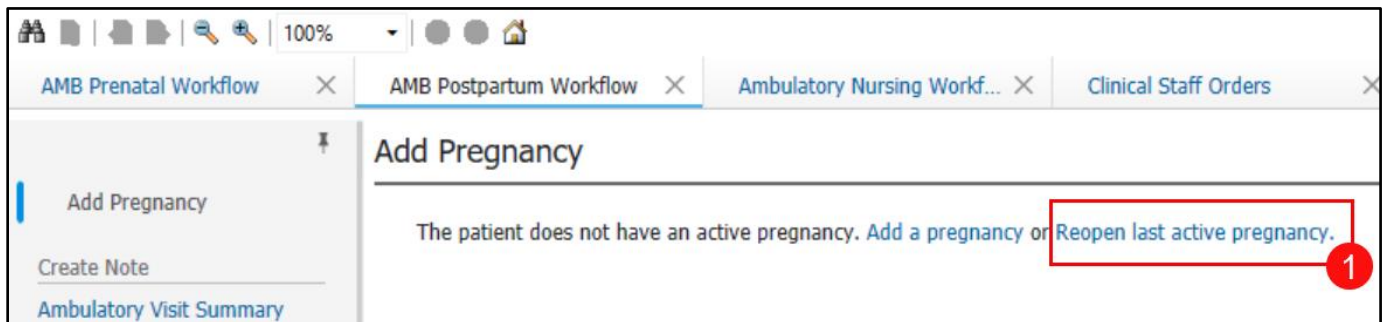

### Cerner PowerChart Ambulatory EDUCATION

At a patient's first postpartum visit, the patient's pregnancy must be reopened to document the pregnancy outcomes.

### Reopen Pregnancy

To reopen a pregnancy at the patient's first postpartum visit, follow the steps below:

1. Click on the **Reopen last active pregnancy** hyperlink from the **AMB Postpartum Workflow**.

2. Enter the pregnancy outcome details in the Comment field.
3. Click Yes.
