UR Transition Planning for Patient Care Management

Cerner PowerChart **EDUCATION**

Overview

The UR Transition Planning page view functions in the Care Management Solution include:
- Clinical Review documentation
- Creation of Post Acute Referrals
- Viewing information related to the current hospital stay

Clinical Review Documentation

Clinical Reviews are documented here using the interfacing InterQual program.

Refer to the Clinical EHR Education website for additional information regarding Clinical Review documentation.

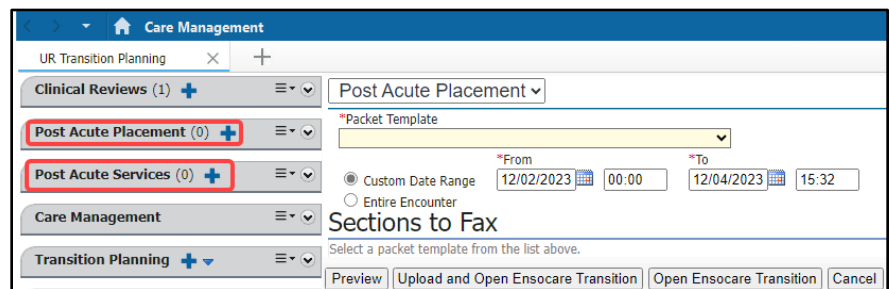

Post Acute Referrals

Referrals for Post Acute Placement and Post Acute Services are initiated here using the embedded program, Ensocare.

Post Acute Placement referral examples:
- Skilled Nursing Facility
- Subacute Rehab Facility

Post Acute Service examples:
- Home Health
- Durable Medical Equipment

Refer to the Clinical EHR Education website, for additional information on Ensocare and Post Acute Referrals.

Information Viewing

Additional UR Transition Planning folders contain patient information and links to clinical documents specific to the patient's current hospital encounter.

To expand folders for viewing, click the arrow on the right side of the folder.
