OMH Medical Group Patient Portal

Ask staff about our Patient Portal that allows you to communicate through secure messaging with our providers, as well as refill prescriptions, request appointments, pay medical bills, and have limited access to your medical records. This service is available anytime, anywhere, from any computer with internet access.

About Us

Munson Healthcare Otsego Memorial Hospital (OMH) is a progressive, independent, fully accredited acute care facility in Gaylord, Michigan, providing a broad range of services to inpatients and outpatients every year. Our affiliated doctors are skilled in more than 60 medical specialties, providing quality care and personal service to thousands annually.

The OMH Medical Group is a multi-specialty group of integrated providers who provide outpatient and inpatient services at OMH. RNs, LPNs, Medical Assistants, and receptionists staff each specialty within the OMH Medical Group. The OMH Medical Group currently employs physicians, nurse practitioners and certified physician assistants in the following specialties:

- Anticoagulation therapy
- Family Practice
- General Surgery
- Infusion Therapy
- Internal Medicine
- Obstetrics & Gynecology
- Oncology
- Orthopedic Surgery
- Pediatrics
- Urology

Patient Centered Medical Home (PCMH)

Your Primary Care Providers office is considered your medical "home base". Your medical home will coordinate your care with other providers, specialists, and community resources. This partnership means that you will always be involved in your own health care decisions. Because of this, your input and participation are very important. The goal of PCMH is to transform your primary care provider's office into your healthcare headquarters.

Lab & Radiology Test Results

Lab services and radiology are offered on site. Please try to use OMH laboratories, radiology, and other test facilities we use regularly to ensure better communication. We strive to get test results to patients in a timely manner. Please call if you haven't heard back from us within a week after tests were done.

Patient Roles and Responsibilities

- Tell us about your needs and concerns.
- Tell us about any illness, hospitalizations, and other health-related matters you may have.
- Tell us what medications you are currently taking at every visit.
- Understand your lifestyle choices may affect your personal health.
- Take part in planning your care, and then follow the care plan. Let us know if you are unable to follow through with your care plan.
- Ask for help if you don't understand something.
- Let us know when you see other providers. Ask other providers to send us a report about your care.
- Seek our advice before you see other providers - we may be able to care for you.
- If ordered before your visit, have your bloodwork done before your visit so the provider can review the results with you.

Provider Roles and Responsibilities

- Lead and coordinate your health care, including short and long term illnesses.
- Provide care given by a team of people led by your provider.
- Respect your individual needs and create a personal health maintenance plan with you.
- Handle your care and medical records with the utmost privacy.
- Give you the tools and encouragement to prevent long term health problems.
- Give you advice to help you stay healthy.
- Give care that is based on quality and safety.
- Explore ways to care for you better, including ways to help you care for yourself.

Insurance Participation

We participate in many health plans. Some health plans are better for preventative care than others; some health plans offer more choices. We review health plans with your interests in mind.

Primary Care Practice Hours

Monday - Friday: 8 am - 5 pm

Ask a receptionist about other available hours. Often, we can guide you to care that best serves your needs.
