Beginning June 1:

- There will no longer be capacity limits outdoors.
- There will no longer be capacity limits at residential gatherings.
- Indoor establishments will be at 50% capacity.
- Social gatherings will now be regulated only by the venue.
 - *For example, guidelines or rules for an indoor wedding or conference would be set by the establishment in which it is hosted.*
- Face masks continue to be required for non-vaccinated individuals indoors.

Beginning July 1, all broad epidemic orders will be lifted.

Why are People Still Masking?

There are several reasons a fully vaccinated person is masking in situations where they're not required to by state or local ordinance:

- They may be immunocompromised.
- The relaxed masking guidance still feels very new.
- Hesitation around unmasked people who may not be fully vaccinated
- Practicing extra caution around those ineligible for vaccination, like kids under 12.

When Should You Still Wear a Mask?

- In indoor situations when you're exposed to others outside your immediate household (if you're not yet fully vaccinated)
- In stores and businesses that still require patrons to mask up
- In most healthcare settings, where the new masking guidelines do not apply, including Munson Healthcare
- In certain workplace settings that fall under MIOSHA Emergency Workplace Rules
- In settings where you just don't feel comfortable going maskless, even if you're fully vaccinated

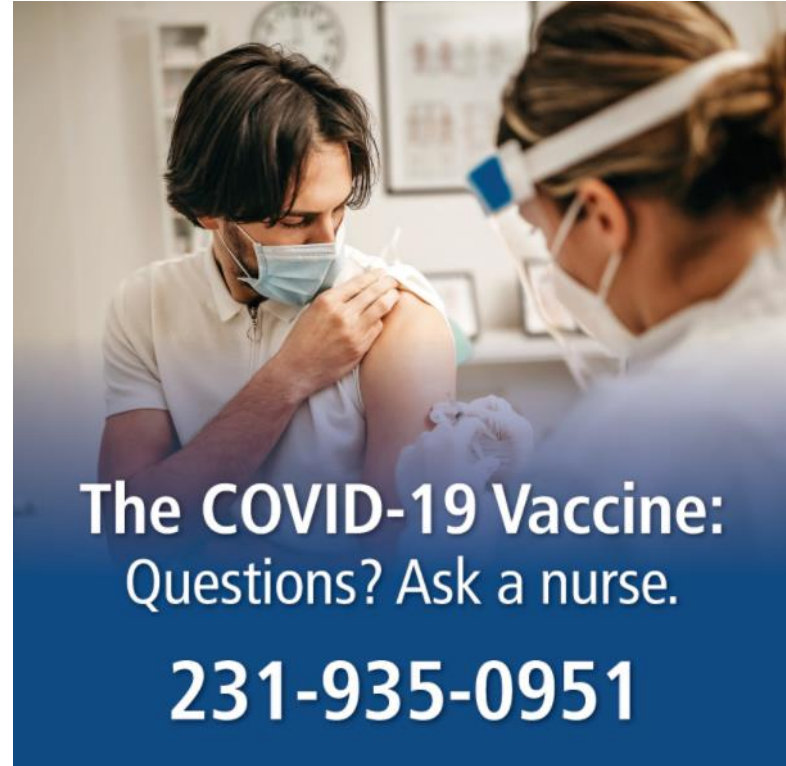

What Can We Do to Feel Safer?

- **Respect one another.** Our sense of personal safety is equally as important as COVID-19 concerns. Please remember the Golden Rule and refrain from questioning others around you about why they are or are not wearing a mask.
- **Do what feels comfortable.** If you are fully vaccinated, but going maskless causes you anxiety or you're just feeling hesitant due to the newness of the recent CDC guidelines, please don't place undue pressure on yourself to go without a mask.
- **Do the right thing.** If you [aren't fully vaccinated](#), continue to mask in indoor settings, like the bank or grocery store.
- **Carry a clean mask with you.** With rules varying from store to store and industry to industry, it's a good idea to keep a clean mask on hand when you do run errands or head out for something fun.

It's OK to Have Questions!

- Your primary care doctor knows you best.
- Talk to your primary care doctor if you have questions about the COVID-19 vaccine.
- Munson Healthcare also offers an Ask a nurse line.

Health Department Updates

Grand Traverse County Health Department

Wendy Hirschenberger, M.P.H.
Health Officer

- **Transitioning to Cherryland Mall for vaccinations**

- After over four months of vaccinations at NMC's Hagerty Clinic, we are officially moving our base camp to our Cherryland Mall location.
- Location: 1700 South Garfield Road, Traverse City, MI 49686
- Hours vary. Check weekly schedule at www.gtcountymi.gov/2394 for up-to-date locations, dates and times of all of our clinics.
- With the focus on vaccines at the location, COVID-19 testing at the location has paused.

- **QR Code**

- New QR code will take you directly to an up-to-date weekly clinic schedule
- Use camera on phone to scan the code and you will be redirected to www.gtcountymi.gov/2394

- **Get vaccinated! Protect yourself and those around you**
 - There are many that can't get the vaccine still, help to protect them by protecting yourself.
 - Tourist season officially kicks off this weekend, protect yourself as we welcome the influx of visitors.
 - If you get a 2-dose Pfizer vaccine this week, you will be fully vaccinated by Cherry Festival.
 - If you choose Johnson and Johnson, you have until June 19 to get the vaccine in time to be fully vaccinated before Cherry Festival.
 - Get yourself vaccinated to protect yourself once the mask requirements are lifted July 1st

WALK-IN CLINIC SCHEDULE - May 25 - 28: Protect yourself and the community... get your shot today!
