Case Rate Trends by Age Group

Daily new confirmed and probable cases per million by age group (7-day rolling average)

- Case rate trends for most age groups saw increases following the Thanksgiving holiday but are decreasing again
- Case rates by onset date for all age groups are between 345 and 792 cases per million (through 12/6)
- Case counts and case rates are highest for 30-39-year-olds this week

Note: Case information sourced from MDHHS and reflects date of onset of symptoms
Source: MDHHS – Michigan Disease Surveillance System

Flu Cases in Michigan

**No flu outbreaks
in northern
Michigan yet.**

MUNSON HEALTHCARE

munsonhealthcare.org/ACT

Let's Band Together.

- Get vaccinated and get boosted.
- Wear a mask in public indoor settings and when serving food.
- Ventilate gathering spaces as much as possible or get outside.
- Continue to practice social distancing.
- Wash hands frequently, especially before preparing, eating, or serving food.
- Communicate in advance with guests about your COVID-19 ground rules and the precautions you're taking.
- Delay travel if you are not vaccinated or feeling sick.
