

honor a loved one through Paint the Town Pink

For over a decade, **Paint the Town Pink** has honored individuals affected by cancer and raised funds and awareness for this important cause. **We are thrilled to carry on this tradition in 2022!**

Your donation to Paint the Town Pink will support women's healthcare services at Munson Healthcare Manistee Hospital. When you make your gift in honor or memory of a loved one, we will recognize them in a special display at our hospital and throughout local businesses during the month of October.

Gifts to Paint the Town Pink in previous years have supported the purchase of a breast biopsy chair, 3D digital mammography equipment, and enhancements to breast health services and education.

Your continued support ensures our community has access to top-quality women's health services!

Make a Gift Today

To support our local hospital through Paint the Town Pink, scan the QR code with your smartphone camera. Please submit all donations by **Monday, September 26**, to ensure recognition of your loved one(s) in our Paint the Town Pink display.
