

Documenting MCHAT Developmental Assessment Workflow for Providers and Clinical Staff

Cerner PowerChart Ambulatory Quality Program Job Aid

Overview

The M-CHAT-R is an autism screening tool designed to identify children 16 to 30 months of age who should receive a more thorough assessment for possible early signs of autism spectrum disorder (ASD) or developmental delay. The MCHAT developmental assessment should be completed at pediatric office visits for patients between the ages of 18 and 24 months, and must be administered by the age of 4 years.

Clinical Staff Documentation

- 1. Administer Paper Form
 - a. Give the patient's responsible party the paper screening form to fill out. After the form is completed, clinical staff will document the responses and score in PowerChart.

2. Add Screening Code to Problems Component

a. Open Ambulatory Workflow, navigate to the Problems component, and add Z13.49 Encounter for screening for other developmental delays ICD-10 code.

| Problem List | Add Z13.49 ICD-10 Code as "This Visit" Problem |
|------------------------------|---|
| Add as This Visit 🗸 z13.49 🛩 | |
| Encounter f | or screening for other developmental delays (Z13.49) |

3. Transcribe Paper Form Results into M-CHAT-R PowerForm

• From Scales and Assessments:

3. Select M-CHAT-R Screening.

- 1. Navigate to the Scales and Assessments Component on the Ambulatory Nursing Workflow.
- 2. Click the down arrow next to Scales and Assessments.

| Scales and Assessments | + ~ | All Visits: Last S | 5 years |
|------------------------|-------|--------------------|---------|
| | M-CHA | T-R Screening | |

- -
- 4. The M-CHAT-R Screening PowerForm window opens.

| 🗸 🖬 🔕 🕅 🏹 🗖 | ★ ♥ ■ 🖾 🖹 | |
|--------------------|--|---------------|
| M-CHAT-R Screening | M-CHAT-R SCREENING | ^ |
| | If you point at something across the room, does your child look at it? (FOR EXAMPLE, if you point at a toy or an animal, does your child look at the toy or animal?) | O Yes O No |
| | 2. Have you ever wondered if your child might be deaf? | O Yes O No |
| | 3. Does your child play pretend or make-believe? (FOR EXAMPLE, pretend to drink from an empty cup, pretend to talk on a phone, or pretend to feed a doll or stuffed animal?) | O Yes O No |

- 5. Enter "Pass or Fail" answer for questions 1-20 as indicated on the paper screening form received from the patient's responsible party.
- 6. A score will total at the bottom of the screening window based on question responses.

7. Click the check mark to sign the M-CHAT-R Screening PowerForm.

Provider Documentation

- 1. Approve the Cosign Order.
- 2. Document the follow-up Plan.
 - Once clinical staff have added the problem Z13.49 Encounter for screening for other developmental delays ICD-10 code for this visit, providers will see it displayed in the patient's problem list and are able to document plan details in the Assessment and Plan component.

Note: Follow-up is also based on the recommendations at the bottom of the screening form categorized by LOW-RISK, MEDIUM-RISK and HIGH-RISK.

Documenting MCHAT Developmental Assessment Workflow for Providers and Clinical Staff

Cerner PowerChart Ambulatory Job Aid

- LOW-RISK: Total Score is 0-2; if child is younger than 24 months, screen again after second birthday. No further action required unless surveillance indicates risk for ASD.
- **MEDIUM-RISK:** Total Score is 3-7; Administer the Follow-Up (second stage of M-CHAT-R) to get additional information about at-risk responses. If M-CHAT-R score remains at 2 or higher, the child has screened positive.
 - Action required: refer child for diagnostic evaluation and eligibility evaluation for early intervention.
 - Child should be rescreened at future well-child visits.
- **HIGH-RISK:** Total Score is 8-20; it is acceptable to bypass the Follow-Up and refer immediately for diagnostic evaluation and eligibility evaluation for early intervention.

Follow-up may also include:

- Referrals
 - o Northern Lakes Community Mental Health
 - Request ADOS (Autism Diagnostic Observation Schedule) testing
 - <u>https://www.northernlakescmh.org/services/</u>
 - o Spectrum Health Helen DeVos Children's Hospital
 - <u>Behavioral Medicine and Psychiatry for Children</u>
 - o **BRAINS**
 - www.brainspotential.com
 - 3292 North Evergreen Drive NE Grand Rapids, MI 49525
 - o Mary Free Bed Kids
 - Autism Spectrum Disorder Program
 - 235 Wealthy St SE, Grand Rapids, MI 49503
 - o Autism Center of Michigan
 - 1363 Douglas Drive, Traverse City, MI 49696
