

Bargaining Update – February 27-28, 2018

The fourth set of bargaining sessions between Munson Medical Center (MMC) and the MNA occurred on Tuesday, February 27, 2018 from approximately 11:50 am – 3:40 pm and on Wednesday, February 28, 2018 from approximately 1:45 – 3:55 pm.

The union provided a revised set of proposals of “non-economics” issues, or those issues other than wages and benefits. MMC responded with a comprehensive counter-proposal that addressed many of those issues. Although there was not full agreement on any proposals, both teams continued to listen to the other side’s views and have an open exchange as part of bargaining in good faith.

Discussions continued on staffing and MMC affirmed its commitment to reasonable workloads, quality care, appropriate staffing and the principles of True North.

The next bargaining sessions are scheduled for March 15 and 16.
