
Nursing Grand Rounds Presents:**“Perspectives in the Prevention and Response to Patient Violence”****Description:**

Workplace violence can be unpredictable but, in some cases, can be prevented. Let’s learn how to decrease this growing trend by examining de-escalation strategies, self-care management, trauma informed care, and the relationship between agitation and the brain. This webinar will enhance the caregiver’s skill set in assessment, care planning, and prevention.

Speaker:

Valerie Harpel MS, APRN-BC
Clinical Nurse Specialist
Behavioral Health
Munson Healthcare

Audience: Nurses, Advanced Practice Providers, and Providers

Date and Location: April 25th, 2024 from 1100–1200pm.
