HIV Screening Done Elsewhere

1. Select Outside Records in the dark menu to view any external records pertaining to HIV Screening Maintenance.

2. If results are available:
 - a. **Click** Actions.
 - b. **Select** Completed.
 - c. **Enter in:**
 - i. Satisfy Date.
 - ii. Reason.
 - iii. Comment (if necessary).
 - d. **Click** Save.

NOTE: Providers are responsible for updating Recommendations yearly. If an HIV result is available in outside records, staff must manually satisfy the recommendation, using the date the test was performed.
