Inactivating IV/IO Dynamic Groups for Nurses

Cerner PowerChart, FirstNet EDUCATION

Document the Discontinuation of the IV/IO Site

1. Create a new time column that reflects the date/time the IO/IV site was discontinued.
2. Document Discontinued in Activity field.

![Example of document the discontinuation of the IV/IO site]

Inactivating Dynamic Group

Complete documentation of IO/IV site prior to inactivating the Dynamic Group.
1. Right click on Dynamic Group Label (gray bar).
2. Select Inactivate.
3. Dynamic Group will be dithered out.
4. To activate Dynamic Group to add more documentation, right click on Label and select Activate. Repeat steps 1 & 2 to inactivate once documentation has been completed.

Note: Dynamic Groups should be inactivated when the reason for them are no longer present. Ex. Right Forearm IV site has been discontinued.
