**Counts are based on midnight census**

*Inpatients are those COVID-19 patients requiring hospitalization.*

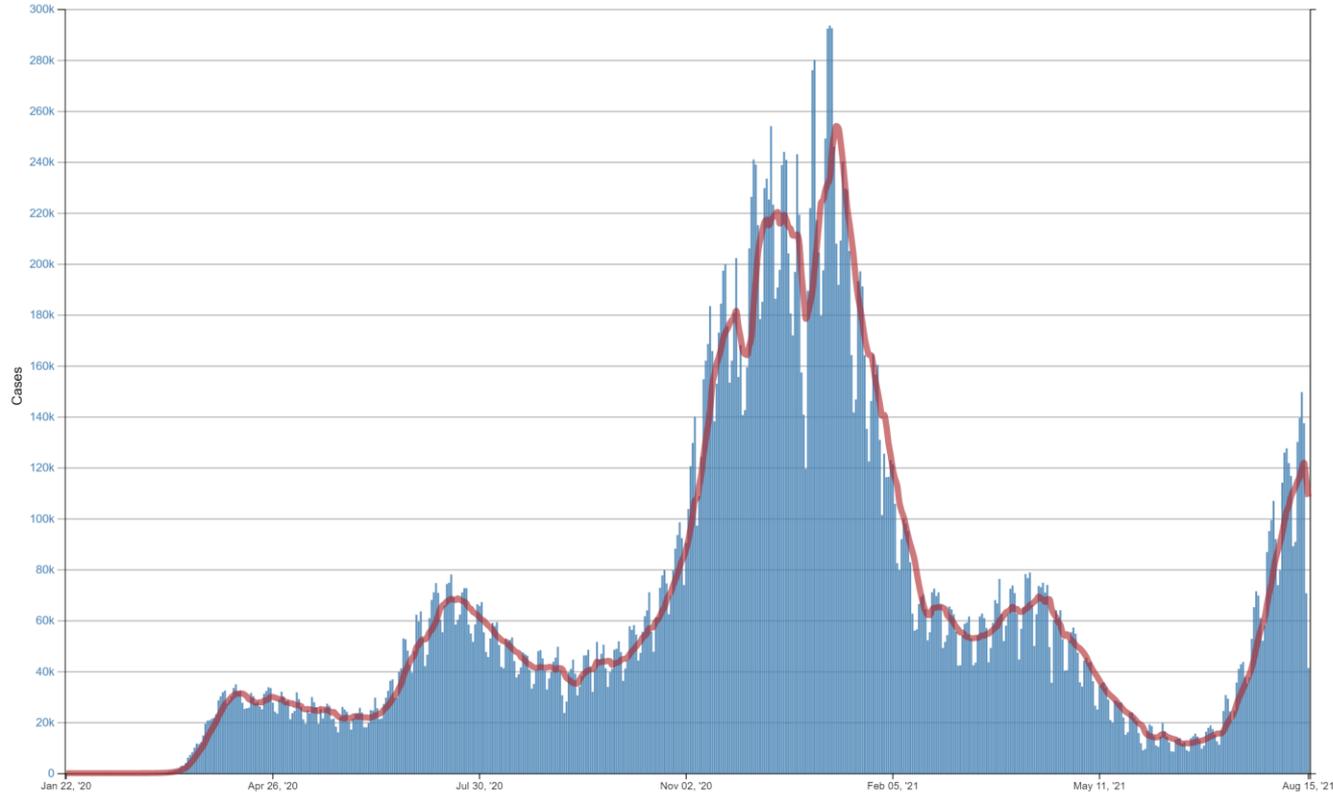

# Munson Healthcare Hospitalization Trends

Updated: 08/17/2021

# Daily Trends in Number of COVID-19 Cases in the United States Reported to CDC

Daily Trends in Number of COVID-19 Cases in the United States Reported to CDC

**Delta Variant  
Confirmed in  
northern Michigan.**

What does this  
mean for our  
region?

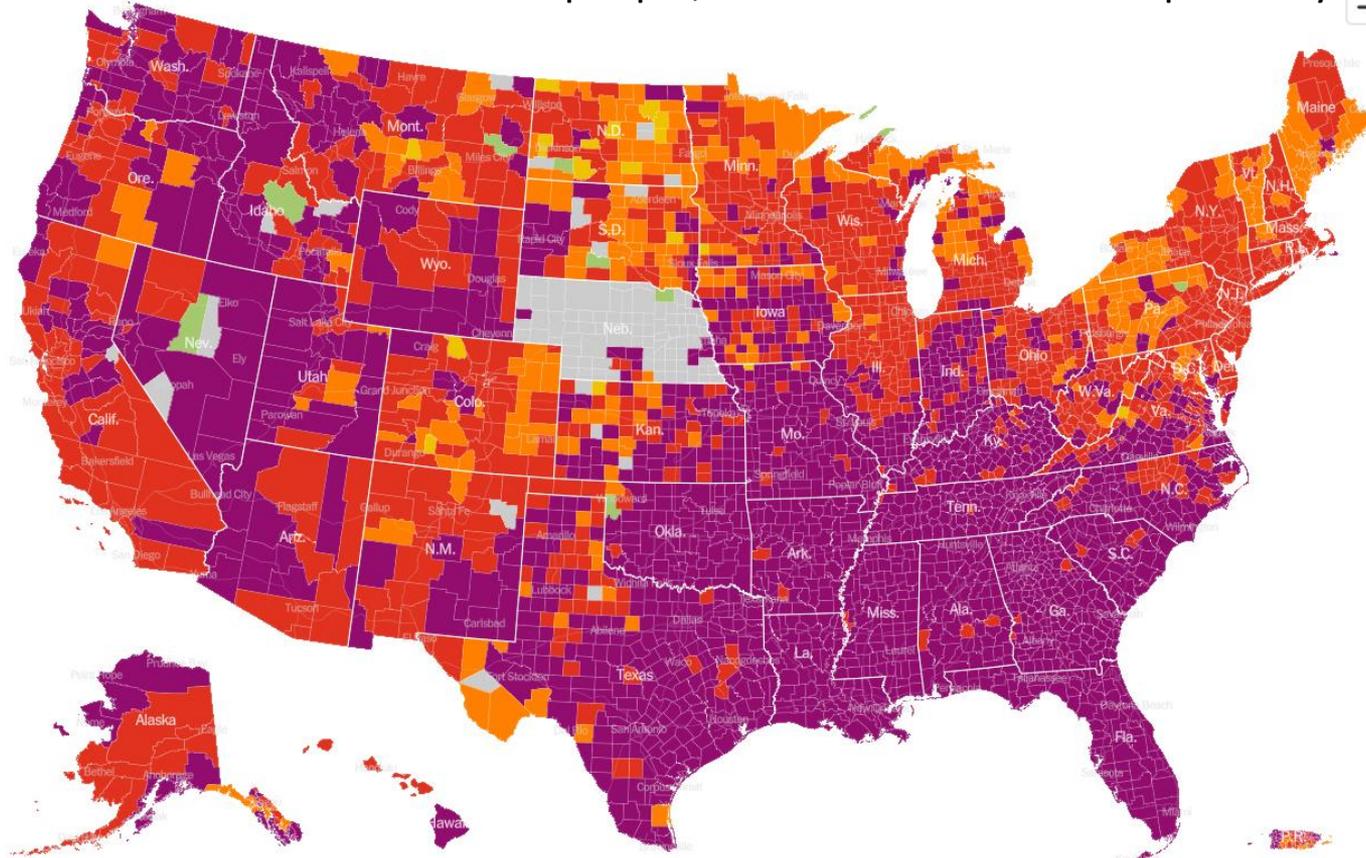

# Risk levels

RISK FOR UNVACCINATED PEOPLE, BASED ON CASES AND TEST POSITIVITY

LOW    MODERATE    HIGH    VERY HIGH    EXTREMELY HIGH

Risk for unvaccinated people, based on cases and test positivity

[nytimes.com](https://www.nytimes.com)

# COVID-19 Treatment Options Remain Limited

## Vaccination is Your Best Option

- Avoid COVID-19
- Avoid hospitalization
- Avoid serious illness

## COVID-19 Infusion Treatment for Patients with Mild to Moderate Symptoms

If qualified, monoclonal antibody therapy for patients 12+ years must be administered within 10 days of the onset of symptoms.

# COVID-19 Vaccine Distribution

## Munson Healthcare

has provided more than

# 87,000

doses of vaccine through 

**Mass Vaccination Clinics**

**Family Doctors**

**Local Health Departments**

**MUNSON HEALTHCARE**

# COVID-19 Vaccine Dashboard: Region 7

## COVID Vaccination Coverage - Initiation

Dashboard Updated: August 13, 2021. "Completion" is the percentage of Michigan residents receiving 2 doses of Pfizer or Moderna or 1 dose of J&J. "Initiation" is the percentage who have received either 1 or more doses of ANY vaccine. See the "Learn More" page to learn how

# COVID-19 “Booster” Vaccines for Moderately to Severely Immunocompromised People

- CDC recommends that people with moderately to severely compromised immune systems receive an additional dose of mRNA COVID-19 vaccine at least 28 days after a second dose of [Pfizer-BioNTech COVID-19 vaccine](#) or [Moderna COVID-19 vaccine](#).
- CDC does **not** recommend additional doses or booster shots for any other population at this time.
- We will continue to monitor new recommendations as they become available.

# Why Get Tested If You Are Experiencing COVID-19 Symptoms?

- Protect others around you by preventing the spread of the virus.
- Monoclonal Antibody Therapy must be completed within the first 10 days of the onset of symptoms.
- COVID-19 has a 2.2% mortality rate and it 20 times more lethal than Influenza.

# COVID-19 Testing and Resources

If You Have Symptoms, Get Tested

- [www.michigan.gov/coronavirus](http://www.michigan.gov/coronavirus) (Click Find a Testing Site)
- Michigan COVID-19 Hotline: 888-535-6136, Press 2
- Primary Care Provider
- Walgreens and Rite-Aid (free)
- Local Health Departments
- Munson Healthcare Ask-A-Nurse Line: 231-935-0951

# Masking Recommendations for School Age Children

- The American Academy of Pediatrics, CDC and MDHHS all strongly recommend masking to ensure the safe return to school.
- Masking protects both you and those around you.
- Since COVID-19 has a high viral load it is very transmissible.
- Please consider masking both you and your children in school settings and other indoor settings.

# Michigan Care Improvement Registry (MCIR)

The screenshot shows the MCIR website interface. At the top left is the MCIR logo with the tagline "Michigan Care Improvement Registry". To the right, the slogan "Improving Healthcare in Michigan" is displayed. A yellow navigation bar contains links for Home, Providers, COVID-19 Providers, School & Childcare, Public, Promote Interoperability, HL7, EXT, Registration, and Contact. Below this, a breadcrumb trail reads "Browse: Home / Resources / Vaccine Information".

On the left side, there is a vertical menu with several buttons: a yellow "MILogin" button with a lock icon, a purple "Providers" button with a person icon, a blue "School & Childcare" button with a school bus icon, a green "Public" button with a person icon, and a blue "PI/MU" button with a gear icon. Above the "Providers" button is a search bar with the text "Search ..." and a magnifying glass icon. Above the "MILogin" button are links for "Technical Assistance" and "Site Administrator Training".

The main content area features a green header for "General Immunization Resources" followed by a list of links:

- [Adult Vaccination \(CDC\)](#)
- [Advisory Committee on Immunization Practices \(ACIP\)](#)
- [Aim Toolkit \(Alliance for Immunization In Michigan\)](#)
- [American Immunization Registry Association \(AIRA\)](#)
- [Ask the Experts \(Submit Immunization Related Questions to CDC\)](#)
- [Centers for Disease Control and Prevention \(CDC\) Vaccines and Immunizations](#)
- [Immunization Action Coalition \(IAC\)](#)
- [Foreign Immunization Record Translation Aid](#)
- [Vaccine Codes \[xls format\] August 2021](#)
- [COVID-19 Vaccine Codes \[xls format\] August 2021](#)
- Visit [CDC Site IIS|Code\\_Sets|CVX|Vaccines|CDC](#) for Posting of COVID-19 Vaccine Codes and Crosswalk
- [MDHHS Immunization Program Page](#)
- [The Children's Hospital of Philadelphia \(CHOP\) Vaccine Education Center](#)

- The Michigan Care Improvement Registry (MCIR) is an immunization database that documents immunizations given to Michiganders throughout life.
- Michigan residents can now log on to MCIR and request vaccine records.

# Health Department Updates

**Benzie-Leelanau District Health Department  
and  
Health Department of Northwest Michigan**  
Lisa Peacock, M.S.N., M.P.H., R.N., WHNP-BC  
Health Officer

# Health Department of Northwest Michigan and Benzie Leelanau District Health Department

Lisa Peacock, Health Officer

- Although not increasing as much as past few weeks, still seeing uptick in number of COVID-19 cases across health department jurisdictions. With exception of a few areas, all counties in HDNW and BLDHD are at substantial or high transmission level designation.
- Working with local businesses and school district leaders on mitigation and safe practices for their employees, students and visitors.
- Agree with CDC/state/local recommendation for universal masking policies for K-12 students, staff, visitors.
- Working with MDHHS to increase capacity for testing; offering weekend testing.
- Partnering with K-12 and community colleges for clinics for students/families.
- CDC recommends testing 3-5 days after exposure regardless of vaccination status
- Information resources available
  - [www.nwhealth.org](http://www.nwhealth.org) [www.bldhd.org](http://www.bldhd.org) Call 2-1-1 for appointment assistance

## **District Health Department #10**

Jennifer Morse, M.D., M.P.H., FAAFP  
Medical Director

# District Health Department #10

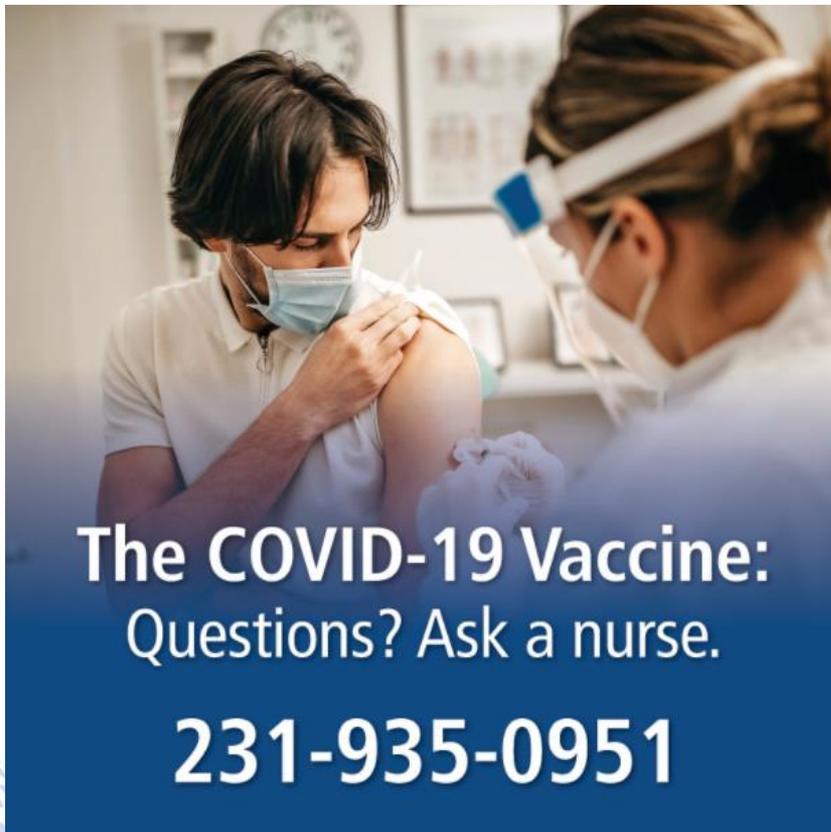

Jennifer Morse, Medical Director

- Case trends:
  - Cases **increasing**: August 2 –August 8= **152 cases**; August 9-August 15= **181 cases**
  - Daily cases per million **increasing**: July 30 = **64.5**; August 6 = **71.81**
  - Percent positivity **increasing**: July 30 = **3.65%** ; August 6 = **7.18%**
  - Delta variant identified in 7 of 10 counties (Crawford, Mason, Mecosta, Missaukee, Newaygo, Oceana, Wexford)
- Total vaccines administered by DHD#10: **104,636** as of 8/11/21
- Numerous pop-up clinics scheduled – go to [www.dhd10.org/events](http://www.dhd10.org/events)
- Walk-ins welcome during the week, encourage calling ahead or coming during normal clinic dates and times – vary for each county, check website for more info
- COVID-19 vaccine page: [www.dhd10.org/covid-19-vaccine](http://www.dhd10.org/covid-19-vaccine)
- Coronavirus page: [www.dhd10.org/coronavirus](http://www.dhd10.org/coronavirus)
  - Added Transmission Tracker Map on website and variant table to Data Dashboard
- Sign up for Public Health Alerts at [www.dhd10.org/subscribe](http://www.dhd10.org/subscribe)

The background is a dark blue color. A pattern of white, slightly elongated oval dots is arranged in a grid that curves away from the viewer, creating a perspective effect that suggests a tunnel or a path leading into the distance. The dots are more densely packed in the foreground and become smaller and more widely spaced as they recede.

Thank you.  
Questions?

**The COVID-19 Vaccine:**  
Questions? Ask a nurse.
