

Pharmacy to Review Route of Administration for Gastric Tubes for MMC Nurses only

Cerner PowerChart and FirstNet **EDUCATION**

Summary: Pharmacy will review medications for route of administration accuracy when:

- A new nasogastric (NG) tube insertion or oral gastric (OG) tube insertion order is placed or discontinued.
- A patient has a Percutaneous Endoscopic Gastrostomy (PEG) tube present on admission, placed or removed during the hospital encounter.

When: October 10, 2023

Support: Help Desk at 231-935-6053

NG and OG Tube Pharmacy Consult Orders

1. Provider enters orders to insert or discontinue NG or OG tube.
2. A pharmacy consult order will automatically generate to Review Meds for Route of Administration.
