## COVID-19 Prescription Rules for Providers

On March 24, 2020, the Michigan Board of Pharmacy enacted [emergency rules related to the treatment of COVID-19](#). One of these rules adds additional prescription requirements for medications used to treat COVID-19:

- Providers must certify an appropriate indication on any new outpatient prescription related to the treatment of COVID-19.
- Providers who inappropriately prescribe hydroxychloroquine or other medications that are deemed effective to treat COVID-19 may face disciplinary actions through [LARA](#).
