Emergent Disaster Preparedness Credentialing

TO:	Munson Healthcare Credentialed Providers
FROM:	Christine Nefcy, MD
SUBJECT:	Emergent Disaster Preparedness Credentialing
DATE:	3/19/20

Working with Munson Healthcare leadership and clinical Incident Command, the decision has been made to begin the process of cross credentialing critical specialties as we continue to make COVID-19 preparations.

What does this mean? Munson Healthcare's System Credentialing team, in partnership with your local medical staff office, will begin disseminating the Emergent/Disaster Privilege form to those identified providers in critical specialties.

For questions, please contact Julie Smeltzer, System Manager Credentialing and Provider Enrollment, jsmeltzer@mhc.net, or your local Chief Medical Officer (see below).

Chief Medical Officers
