Provider Access to Munson Medical Center

Please be aware that access points to Munson Medical Center have been seriously pared down.

During this situation, use the following guidelines:

- All providers have ID badge access to enter the employee parking structure via Medical Campus Drive 24/7. The Ground Level vestibule entering the hospital from Level 2 of the structure is staffed around the clock with screening personnel. Everyone will be screened when entering the building, regardless of occupation or destination.
- A secondary option is to enter through the Emergency Department's walk-in/drive-up entrance. However, we encourage providers to use this sparingly to prevent unnecessary contamination between patients and staff.
- Monday – through Friday, providers can park in Lot D, E, the Employee Parking Structure, or Lot K. During business hours, the following entry points are available and staffed with screeners in addition to the Parking Structure Entrance:
 - Main Entrance, 5:00 am - 5:00 pm
 - MPB South Lot C Entrance 7:00 am - 6:00 pm
