

LabMed Report

A publication of:
Munson Healthcare Laboratories
Grand Traverse Pathology, PC
Physicians Diagnostic Support Service

In this issue: Changes from Ortho Rhogam to CSL Behring Rhophylac

May, 2023 Vol 8

Editors:

William A Kanner, MD
Bonnie Torres, MT(ASCP)

Why we are changing:

Due to vendor price increase, Munson Healthcare has switched suppliers of Rh Immune Globulin from Kedrion Rhogam to CSL Behring Rhophylac.

What is changing:

- Packaging: The Rhophylac will come in a box that has been opened by lab staff to inspect the vial before it is issued.
- Inside that box will be another sealed package that contains the syringe. The sealed package will remain intact.

Rhogam- discontinued product	Rhophylac- Replacement product
	

What is not changing:

- Dose, testing required, availability and administration remain the same.

When will the change occur?

- Dependent on our current supply, staff can expect to see Rhophylac distributed as early as 5/18/23.

Questions:

- Please contact your local Laboratory Blood Bank or Pharmacy with any questions.
