

RECOVERYSM PROGRAM POST COVID-19 OUTPATIENT REHABILITATION

No matter the COVID-19 path your patient has traveled, we're ready to help with everything from a short round of physical therapy to extensive rehabilitation.

ELIGIBILITY

Services are available for adults and children recovering from COVID-19. This includes those affected by persistent symptoms that last weeks or months after the infection has cleared — a group widely known as “long-haulers.”

SYMPTOMS

We're treating the unique needs of patients with an array of COVID-19 symptoms:

Physical

- Chronic pain
- Deconditioning
- Dysphagia
- Fatigue
- Muscle and joint aches or pain
- Rapid heartbeat
- Respiratory problems
- Sleep issues
- Stroke related to COVID-19

Neurological

- Headaches
- Loss of smell or taste
- Memory difficulties and “brain fog”

Psychological

- Anxiety
- Depression

TREATMENT

Our multidisciplinary ReCOVeRYSM teams are led by clinicians focusing on COVID-19 research and treatment.

Depending on your patient's needs, our teams include physical and occupational therapists, speech-language pathologists, respiratory therapists, psychologists, pain rehabilitation specialists and nutritionists.

ReCOVeRYSM Supportive Treatment Group

COVID-19 can take a toll not only physically but also emotionally, mentally and socially. Our supportive treatment group is facilitated by a health psychologist trained in managing chronic conditions.

Your patient receives mental health support, education on symptom management and coping skills development.

REFERRALS

Mary Free Bed at Munson Healthcare - Long Lake

5191 Rosewood Drive
Traverse City, MI 49685
P: 231.946.1979
F: 231.946.1984
