Setting a Default Patient List for Nursing Staff

Users can arrange their patient lists so that one list is the default list that opens with their designated PowerChart Organizer.

- Current PowerChart Organizer is the PAL.
- New PowerChart Organizers will be the following:
  - CareCompass
  - Clinical Leader Organizer
  - Nursing Assistant Organizer
  - Unit Clerk Organizer

### Default Patient List

1. Select Patient List from the Tool Bar.

2. Click on the List Maintenance icon.

3. The Modify Patient Lists window opens.
4. Select from the Active lists which list is to be the default.
5. Use the arrow buttons on the right to adjust the default list to the top of the Active lists.
6. Click Ok.
7. The PowerChart Organizer will now default open to the user’s designated default list.
