

# Tobacco Use and Cessation Workflow for Providers and Clinical Staff

## Cerner PowerChart Ambulatory EDUCATION

**Summary:** Tobacco use should be documented at each visit for all patients 12 years and older.

**Support:** Ambulatory Informatics at 231-392-0229.

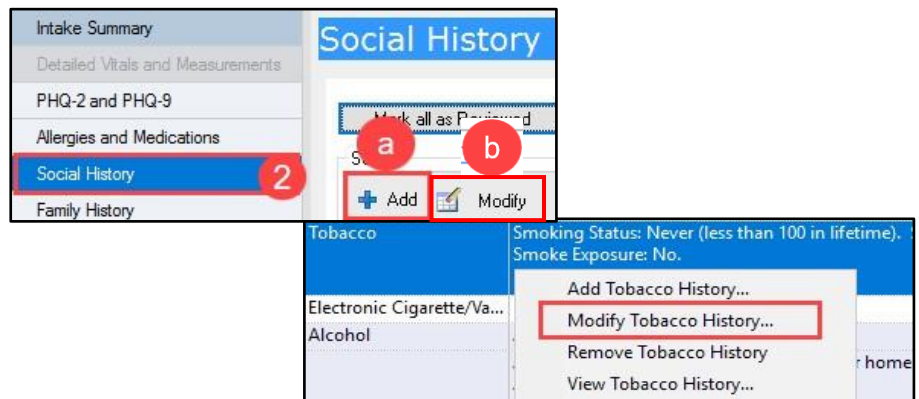

### Clinical Staff Documentation

#### Ambulatory Nursing Workflow

- Navigate to **Vital Signs** in the Ambulatory Nursing Workflow page.
  - Select the drop-down arrow.
  - Select the appropriate Intake.

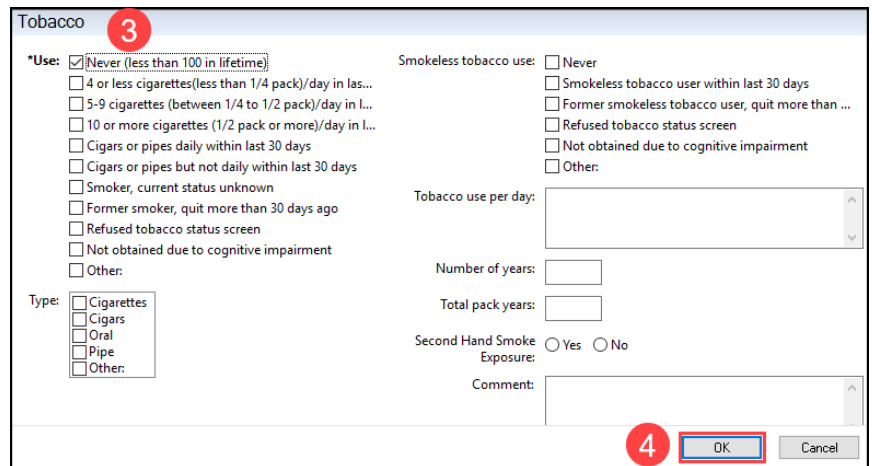

- Navigate to **Social History**.
  - If Tobacco History has **not** previously been entered, click the **+ Add** button.
  - If Tobacco History has been previously documented, select the entry and click **Modify**, or right-click on the Details and select **Modify Tobacco History**.

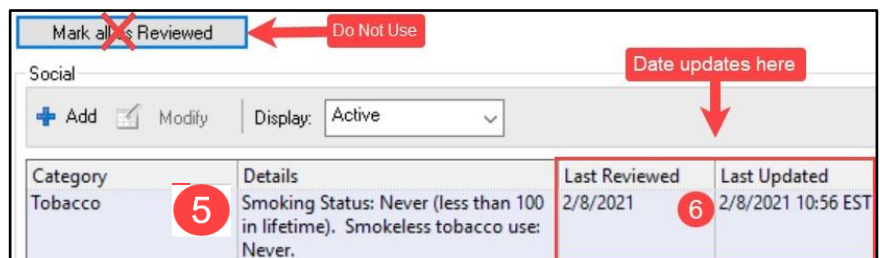

- Document the patient's Tobacco History.
- Click **OK**.

**Note:** Munson Healthcare minimum documentation standards require smoking status be documented at each visit.

- Documented Tobacco details display.
- The Last Reviewed and Last Updated dates auto-populate to when the details were last added or modified.

## Cerner PowerChart Ambulatory EDUCATION

7. If the patient is a current or former tobacco user, add the correct Nicotine dependence ICD-10 code as a Diagnosis (Problem) being Addressed This Visit.

- a Search for and select the correct diagnosis within the Problems and Diagnosis section.

Applicable Nicotine Dependence ICD-10 Codes	
ICD-10	Description
F17.200	Nicotine dependence, unspecified <b>**Use specified codes when possible**</b>
F17.210	Nicotine dependence, cigarettes
F17.220	Nicotine dependence, chewing tobacco
F17.290	Nicotine dependence, other tobacco product
Z87.891	History of nicotine dependence

8. When complete, click the green check to sign the Intake.

9. Once the Intake PowerForm is signed, the documented Tobacco History displays in the Histories component on Ambulatory Workflow.

10. If the patient is a tobacco user, navigate to Patient Education and select a Suggestion for the Nicotine Problem.
