

Cerner PowerChart Ambulatory EDUCATION

The Ambulatory Organizer is a comprehensive display of scheduled appointments for ambulatory providers and clinical staff. It provides details of the current day's appointments, including appointment details, open items to be completed at each visit, and meaningful use reminders.

Ambulatory Organizer

The Ambulatory Organizer is found on the Home screen once logged into PowerChart.

Click on the Home

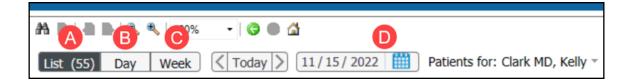

d Home icon to open the Ambulatory Organizer.

- 1. The Message Center Overview is displayed on the left side of the screen. This displays messages, documents, orders tasks, or reminders to complete or sign.
- 2. The **Print** button will print the schedule of the selected resource displayed on the Day view.
- 3. **Settings** can be changed for the schedule display and reminders in the Ambulatory Organizer.

Resource Selection

The Resource Selection allows for selection of a single resouce or resource group to display. Resources include providers, procedure rooms, specialty rooms (ultrasound, x- ray, nurse visit), and groups of providers.

To select the resource(s) to be displayed in each view:

- 1. Click the drop-down arrow next to Patients for:
 - a. There may be a resource already selected.
- 2. Type the resource name in the search box.
 - a. A resource group can also be added by searching for the group name. If Munson Family Practice Center
- 3. Select the resource by checking the box next to the desired resource.
 - a. Multiple resources may be selected to display on the organizer at once.
- 4. Click Apply.

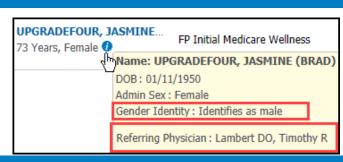

To remove a resource from the organizer display:

- 1. Click on the drop-down arrow next to Patients for:
- 2. Deselect/uncheck the correct resource.
 - a. Deselecting a resource will only remove them from the organizer display, but it will remain in the dropdown pick list to quickly select in the future.
 - b. To delete the resource from the quick pick list, click the interval icon.

Patient Name information

Hover over the **1** icon in the Ambulatory Organizer to display demographic information including:

- Last name, First name (preferred name).
- DOB.
- Admin Sex/ Birth Sex.
- Gender Identity (if this differed from Admin/Birth Sex).
- Phone number.
- Referring Physician name.

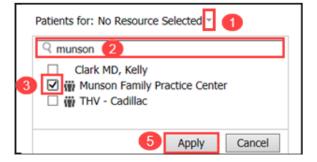

Color Status

The color status displays and updates with each change in patient status. The status will change automatically based on actions completed in the EHR but may be adjusted manually if needed.

Changing a patient's status:

- 1. Select the patient's current status.
- 2. Select a new status.
