

Dynamic Documentation Note Favorite for Providers

Starting a Note Using Select Other Note

If the desired note template is not listed in the Workflow:

1. Click More.
2. Click Select Other Note.

Complete the following steps to start a new note:

3. Select a note type from the Type list.
4. Only change the Date of the note if starting the note after seeing the patient.
5. Select a Note Template from the list.
6. Click the star to favorite a Note Template. A yellow star indicates that template has been favorited.
7. Favorited Note Templates can be found in the Favorites tab.
