

Gender Identity and Preferred Name Documentation for Clinical Staff and Clerical Staff

Cerner PowerChart Ambulatory EDUCATION

Summary: Documentation of a patient's identified gender that differs from their birth sex is completed within Social History by clinical staff during intake and displays an *i* indicator on the patient's demographic bar in PowerChart. Preferred name documentation is completed within Revenue Cycle and displays in both Revenue Cycle and PowerChart.

Support: Ambulatory Informatics at 231-392-0229

Patient Gender Identity Documentation

Documentation of a patient's identified gender that differs from their birth sex is completed within Social History.

- Navigate to Social History within any Intake or Wellness Visit PowerForm.
- Select the Sexual category with Social History and open the documentation screen by double clicking, or right click and select Add Sexual History.

Intake Summary	Social History

Patient Gender Identity Notification

- Once a patient's appropriate gender identity that differs from their birth sex is documented, an *i* indicator displays on the patient's demographic bar in PowerChart.
- To view documented gender identity:
 - Navigate to the Histories Compenent on the Ambulatory Workflow MPage and select Social.
 - Gender identity information displays within the Sexual category.

Patient Preferred Name

• A patient preferred name may be documented within Revenue Cycle by entering the patient's preferred name in the Preferred First Name field within Demographics.
