

Gender Identity and Preferred Name Viewing for Providers, Clinical Staff and Clerical Staff

Cerner PowerChart Ambulatory EDUCATION

Summary: Documentation of a patient's identified gender that differs from their birth sex is completed with Social History by clinical staff during intake and displays an *i* indicator on the patient's demographic bar in PowerChart. Preferred name documentation is completed within Revenue Cycle and displays in both Revenue Cycle and PowerChart.

Support: Ambulatory Informatics at 231-392-0229

Patient Gender Identity Notification

- Once a patient's appropriate gender identity that differs from their birth sex is documented, an *i* indicator displays on the patient's demographic bar in PowerChart.
- To view documented gender identity:
 - Navigate to the Histories Compenent on the Ambulatory Workflow MPage and select the Social tab.
 - 2. Gender identity information displays within the Sexual category.
